DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 17 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Moore et al. (5,934,745).

Moore et al. disclose a passenger vehicle structure (10) made of non-metallic material. The structure includes a panel structure (42) that is bonded to a hollow girder (84). Adhesive is applied to flanges of both the panel structure (42) and the hollow girder (84) to attach the two sections together. The hollow girder (84) forms part of the windshield frame.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 18 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moore et al. (5,934,745) in view Brown (5,914,163).

Moore et al. does not disclose the use of carbon fiber.

Brown teaches the use of carbon fiber to make structural components of a vehicle.

Art Unit: 3612

It would have been obvious to one of ordinary skill in the art at the time the invention was made to make the structure of Moore et al. with carbon fiber, as taught by Brown, to provide the desired strength and weight.

Allowable Subject Matter

5. Claims 2-16 and 24-27 are allowed.
6. Claims 20 and 23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
